NUCCI CONSULTING GROUP ANNOUNCES A SUCCESSFUL LIFT-OUT OF AN EQUITY TEAM FROM WEISS PECK TO BLACK ROCK, INC.

Many Wall Street firms have built their firms through acquisition or merger. One of the newest trends is in “lift-outs” and one of the lift-out experts is Ev Nucci of Nucci Consulting Group. Nucci just completed a lift-out of a quantitative equity team from Weiss, Peck & Greer to BlackRock.

Nucci Consulting Group is a consulting firm that specializes in building institutional asset management firms through team lift-outs and individual searches.

Nucci commented on her lift-out with BlackRock, “My expertise is in analysis of an organization’s culture, management team, strategy, business plan execution, and vision. BlackRock, Inc. has been my client for many years. I have an enormous amount of respect and admiration for the organization. It is difficult to find leadership excellence, vision and brilliant strategy under one roof on Wall Street. Add integrity to the equation and BlackRock is in a league of its own.”

Nucci Consulting Group is based in suburban Philadelphia. In addition to Black Rock, Inc. the firm's clients have included, ING Barings, SSBCiti Asset Management (Solomon Brothers Smith Barney Citigroup) and Brown Brothers Harriman & Sons.
